

CENTURY

5300CC

THE LEGACY

Founding

The Welch Brothers

Century Boat Company was founded in 1926 in Milwaukee, Wisconsin by two brothers, James and William Welch, who specialized in building wooden plank hulls designed for speed. In 1928, the company moved to Manistee, Michigan.

History

Designed for speed and fun...

Century's "Hurricane" held the world's outboard speed record of 50.93 miles per hour. By 1937, Century offered 28 models. In the early 1960s, Century Boats introduced its first jet-powered boat. In the late 1960s, Century began creating composite fiberglass hulls. In 1983 the company moved to Panama City, FL. Century led the popularization of boats with car like attributes.

Today

Multiple product lines for discerning boaters

Having sold 10,000+ boats over 95 years, Century Boats designs and builds high quality, luxury boats of many sizes in Tampa, FL. It sells its boats primarily through a vast, global dealer network.

5300CC SPECIFICATIONS

Length:	53'-0"
Beam:	15'-0"
Transom Deadrise:	22°
Dry Weight	30,000 lbs
Fuel:	1000 gal
Fresh Water:	100 gal
Diesel:	35 gal
Waste:	25 gal
Max HP:	3,000 hp*

*Accommodates up to quint 600's

Game Changing Innovations

Hybrid Hull Design

An engineered balance between a traditional “V” hull and stepped hull design. Century 53CC blends the best of both worlds! With unique strake geometry, a dynamic keel pad and a multifaceted transom, our hull has been born and bred to perfection. Our Hybrid Hull practically eliminates bow rise while reducing drag and increasing lift.

High Performance Materials

An exclusive carbon fiber/Innegra hybrid developed for the hull of the 53CC provides extra stiffness while reducing overall weight. All composites are vacuum infused to achieve optimum glass/resin ratio.

360° Fishable Swim platform

Twin transom doors open to an oversized swim platform providing complete 360° fishability. Engine rigging is hidden below the platform for safe, unobstructed maneuverability.

Pilot-House Helm

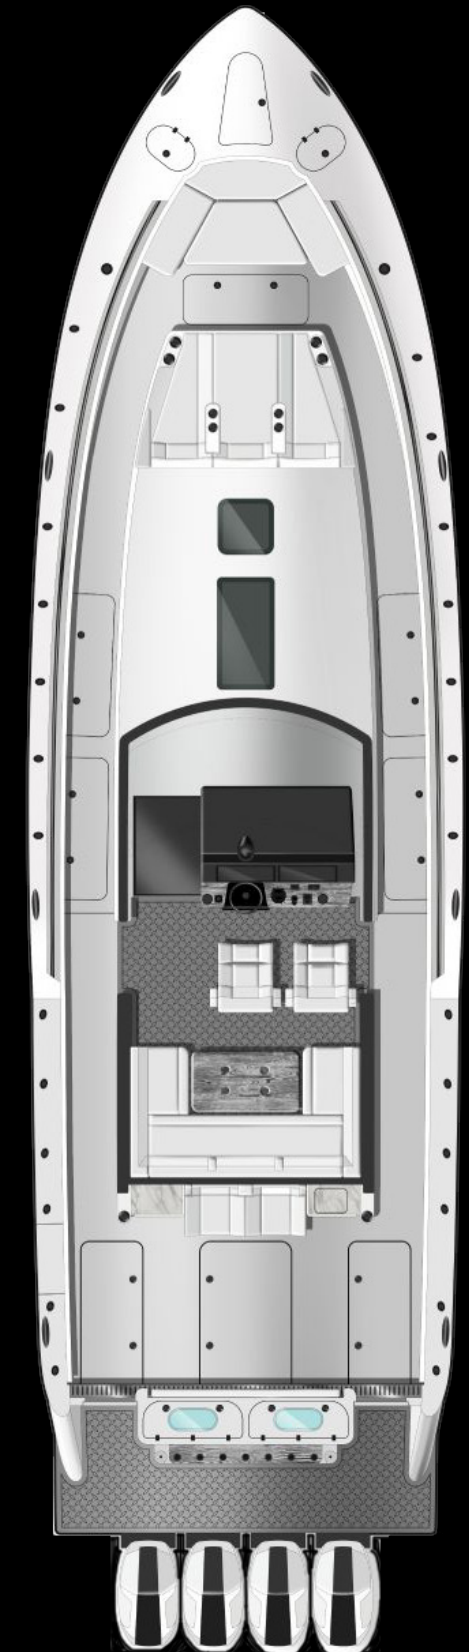

A semi-enclosed console area provides a comfortable, climate controlled cabin space for you and your guests onboard. Perfect for a hot summer day or a brisk fall morning. Convenient zip-up canvas panels convert this space into a fully enclosed pilot house.

Overnight Accommodations

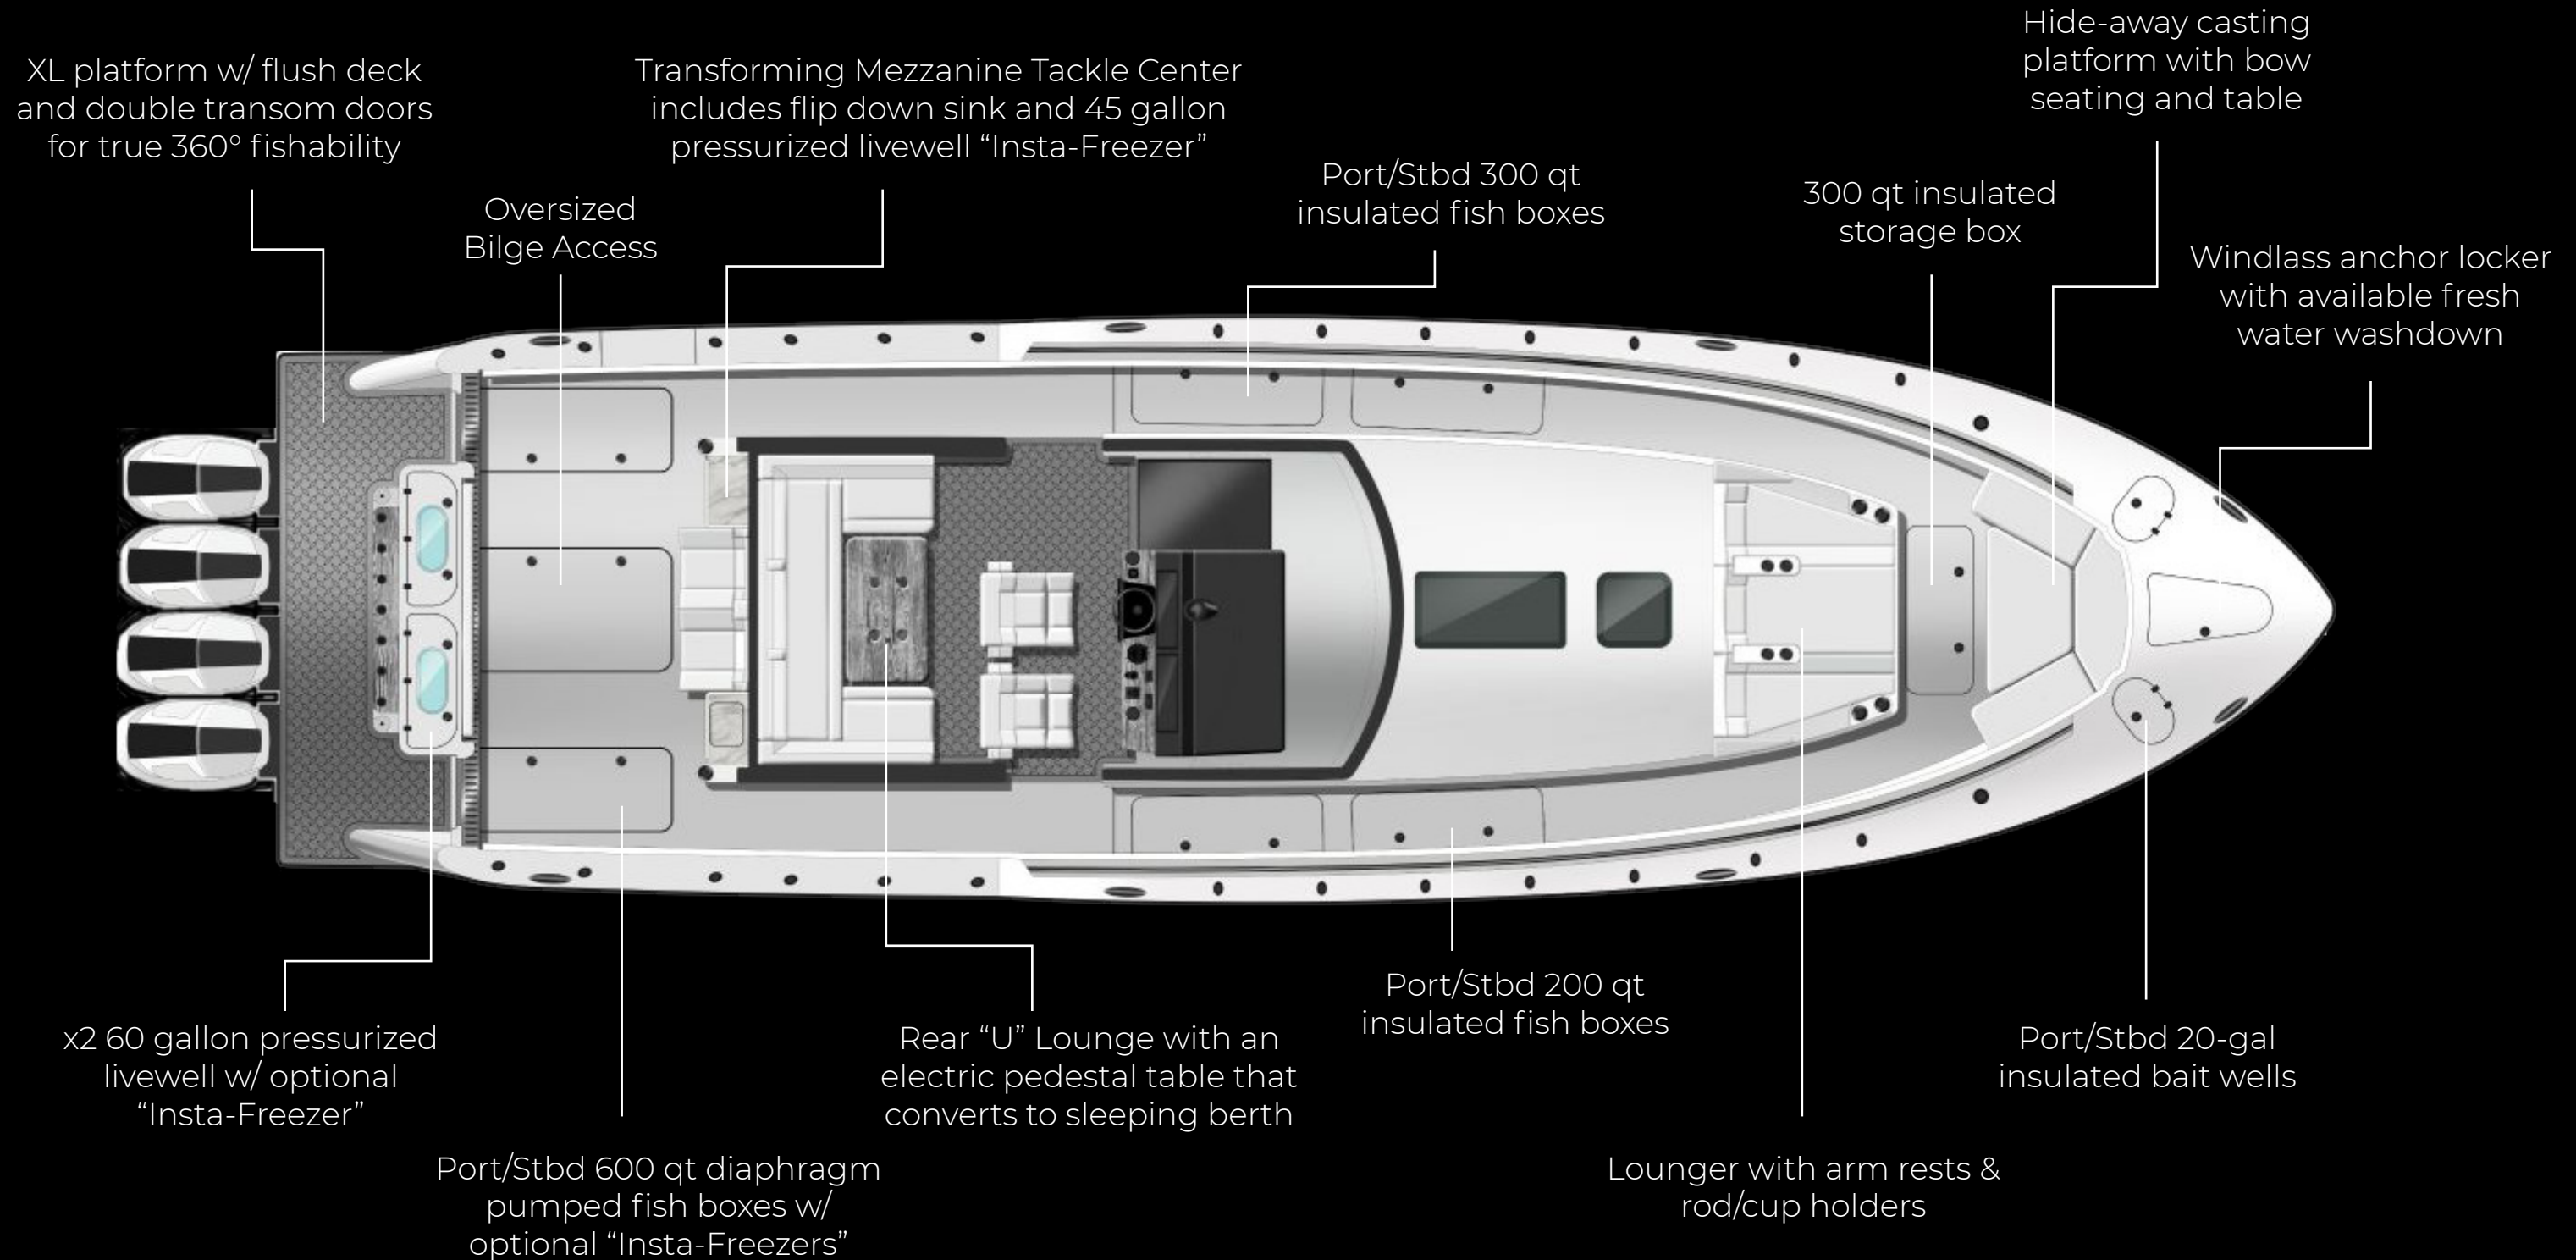

Three separate berths below deck comfortably sleep 6 adults. An additional lounge above deck converts to sleep 2 more adults inside the air conditioned pilot house.

Insta-Freezer

Never need ice again! Insulated fishboxes with dedicated freezers keep your catch frozen with the touch of a button.

5300 Deck Plan

5300 Exterior

Helm

A semi-enclosed helm area is shielded with UV stable safety glass, providing operators with excellent visibility of the entire vessel. Top of the line electronics and controls have been perfectly positioned into this clean and ergonomically designed console.

5300 Exterior

Second Row Seating

Spacious and deep “U” shaped seating is positioned directly behind the dual helm chairs. Upholstered in premium marine vinyl, this unique bench seating transforms into a fourth sleeping berth by simply lowering the electric pedestal table and inserting a filler cushion.

5300 Exterior

Mezzanine Tackle Center

The most advanced, functional, and well-engineered tackle center in its class! Our system is centered around a large countertop workspace. With knife and tool storage positioned directly in front, a freshwater sink placed to starboard, and multiple drawer storage below, maintaining organization will be a breeze. Toe kicks all around mean you can stand up tall, securely rig baits, and maintain control while running. You'll also find an integrated 45-gallon live well with Insta-freezer technology, conveniently placed electrical outlets, and an optional refrigerator, freezer, and ice maker.

5300 Exterior

Bow Lounging

One of the best seats in the house, the bow lounge and sunpad are where you go to lay out, soak up the sun, and take in the view. An electric table at the bow transforms from a dining area when raised to a sunbed when lowered. Remove the cushions and you have a casting platform ready for the days adventure.

5300 Exterior

Second Station

An optional tuna tower features a lightweight aluminum structure with molded fiberglass hardtop and electronics pod. A full helm station includes engine controls, trim control, steering wheel w/ tilt helm, VHF radio, downlights and speakers.

5300 Interior

Main Cabin

The dual zone climate controlled cabin features a full sized galley including corian countertops, sink, range, fridge, freezer, microwave, and ample cabinet storage throughout. Skylights and elongated side windows flood the cabin with plenty of natural light.

5300 Interior

Master Stateroom

A private stateroom is located just forward of the galley. Behind the privacy of a sliding pocket door, couples will enjoy the spacious queen sized bed with built in storage below, as well as separate his and hers cedar lined closets.

5300 Interior

Second Berth

A second private berth is tucked away just behind the stairs. Perfect to accommodate two adults overnight or a fun hang-out for the kids!

5300 Interior

Third Berth

Directly across from the galley is a dinette seating area. The backrest flips up to create over/under bunks for two.

5300 Interior

Head

The fully enclosed head provides guests with all the comforts of home. A modern vanity with hot/cold faucet, spacious sink, and oversized mirror sit next to a fully electric macerated toilet. An enclosed hot/cold shower is positioned just across the way.

5300

Standard Features

CONSTRUCTION & ENGINEERING

- Century uses high performance gelcoats that are formulated to withstand the marine environment, beating all the elements to protect your surface finishes from saltwater, UV light, and rough handling to ensure high-gloss retention. Standard gel coat color is Snow White. All fiberglass components (such as hulls, decks, integrated stringer grids, etc.) are fully molded for a flawless fit & finish and fabricated with aerospace grade composite technology. Our lamination process uses vacuum infused carbon fiber hybrid materials in unison with the latest PVC core technology and is engineered for density, thickness, and stiffness.

SAFETY

- Meets ISO structural standards
- Dual zone SPX bilge system with (x2) 2200-gph automatic bilge pumps, Ultimate Senior float switches, manual overrides, and high water alarms
- Fire Boy-Xintex Automatic fire suppression system in machinery spaces
- Fire Boy-Xintex Fire extinguishers
- MTI Smoke/CO detector in cabin
- Dedicated PFD storage

WE HAVE YOU COVERED

- Limited Hull Warranty - 5 years
- Components: 1 year of manufacturers warranty, where applicable
- Platinum Warranty extension available

MECHANICAL

- Quad Yamaha 425 (grey)
 - Eco Enertia SS propellers
 - 10-micron fuel/water separator with sensor & alarm per engine
- 9.5Kw Next-Gen marine diesel generator with remote start/stop panel and Racor diesel water separator
- Seakeeper 6 DC gyro stabilizer
- Quick 12 VDC bow thruster
- ZipWake dynamic trim system
- Integrated sea chest ensuring continuous clean water to all pumps and livewells
- Aluminum gas, diesel, and freshwater tanks with coal tar epoxy coating and NMEA digital sending units
- Polyethylene holding tank with NMEA digital sending unit
- Quick 1200-watt water heater

ELECTRICAL

- (x1) 150-amp Xantrex smart battery chargers
- C-Zone digital switching
- Odyssey AGM battery system (1 per engine, 1 for generator, 4 for house, 1 for bow thruster & windlass) with remote/manual disconnect switches and monitoring system
- USB charging outlets throughout
- 110V GFCI outlets throughout
- 50-amp shore cord, 35'
- All wiring uses UL rated tinned copper wire and meets ABYC standards
- Bonded electrical system with sacrificial anodes

DECK

- Non-skid on all gunwale and deck surfaces
- Stainless steel deck fills (4 gas, 1 diesel, 1 water, 1 waste)
- Premium marine vinyl wraparound bolsters
- Stainless steel pop-up cleats (x10)
- Under gunwale rod/gaff storage
- Gemlux Rod Holders
 - (x7) transom module
 - (x6) gunwale
 - (x2) mezzanine (rod/cup holder)
 - (x4) bow lounge (rod/cup holder)
- Under gunwale rod/gaff storage

BOW

- (x2) 20-gal insulated wells at bow to hold bait, beverages or bumpers
- Stainless steel grabrails
- 400 qt in-deck dry storage box
- Bow table w/ electric pedestal to go flush into deck
- Anchor locker w/ Quick AL3 windlass: includes 316SS bow plate, roller, 47lbs Ultra Anchor, safety harness, and 300ft rode

MIDSHIP

- (x2) 300 qt insulated in-deck fish boxes, midship aft, diaphragm pumped
- (x2) 200 qt insulated in-deck fish boxes, midship fwd, diaphragm pumped

5300

Standard Features

COCKPIT

- (x2) 60-gal pressurized transom livewell w/ Hooker Electric variable speed pumps and adjustable fills/drains (available as Insta-Freezer)
- (x2) 600 qt insulated in-deck diaphragm pumped fish boxes (available as Insta-Freezers)
- 360° fishability with dual transom doors and unobstructed splash well
- Self-draining w/ integrated gutter system
- Port side dive door with deployable ladder
- Folding rear bench seat at livewell
- Fresh and salt water washdowns

CABIN

- Locking companionway entryway through helm
- Termodinamica dual air-conditioning w/ smart logic system that adapts and self-adjusts when it detects one zone having a higher need than another
- Isotherm stainless steel fridge w/ freezer
- GE SS compact microwave
- Lumitec LED lighting throughout
- (x2) 32" Jensen LED smart TV
- Premium LVT flooring
- Corian countertop in cabin & head
- Fully enclosed head with vanity, hot/cold vessel sink and mirror; 12V macerated toilet with holding tank or overboard discharge; separate hot/cold shower with LED lighting
- Accommodations including (x2) cabin berths, (x2) converting bunks, and a second row flip-up bunk at helm

HELM

- Semi-enclosed helm area
- Deluxe hardtop with SS Maxi Blast Horn, molded for radar pod, LED nav lights and cockpit spreader light
- Dual helm chairs w/ premium marine vinyl, arm rests, flip-up bolsters, and footrests
- Laminated safety glass windshield w/ side panels fore and aft of helm side entryways (all glass is chemically hardened and has UV barrier)
- Edson SS steering wheel w/ tilt helm
- Exalto single arm pantograph windshield wiper
- Ritchie high speed compass, backlit
- Termodinamica air-conditioning with vents at helm
- Lockable storage box with USB charging outlets
- (x2) Dometic refrigerated cup holders
- Illuminated switch panel
- Quick bow thruster joystick control
- Zipwake control panel

JL AUDIO STEREO SYSTEM

- Package includes MediaMaster 100s (x12) speakers, (x3) 10" subwoofer w/ amplifier

LUMITEC LIGHTING

- Package includes LED nav lights, downlights in cabin and helm, cockpit spreader lights, and courtesy lights.

HULL COLOR OPTIONS

- White
- Grey
- Ice Blue
- Custom (not offered as standard)

UPHOLSTERY COLOR OPTIONS

- White
- Grey
- Toast
- Custom (not offered as standard)

CABIN COLOR OPTIONS

- Light Brown
- Grey
- Dark Brown
- Custom (not offered as standard)

DECK SURFACES & SPECIAL REQUESTS

- Dark gel coat color (black, navy, etc.)
- Gel coat color match underside of hardtop to hull color
- Synthetic flooring (SeaDek)

CURTAINS & CANVAS

- Helm zip-up side curtains (canvas with eisenglass)
- Helm zip-up aft curtain (canvas with eisenglass)
- Aft shade with carbon fiber poles
- Canvas covers: mezzanine, livewell seat, bow longer

BOW

- Towing Package
 - Heavy duty towing eye with structural reinforcement in hull laminate.
 - Clam shells over critical thru-hulls
 - High-water alarm w/ audible horn and strobe light
- Additional gunwale mounted rod holders (offered in pairs)
- Electric reel outlets (offered in pairs)

MIDSHIP

- Gemlux Bluewater Series HD SS outrigger bases w/ 22ft carbon fiber telescoping outriggers
- Hydrostatically released life raft on hardtop
- Additional gunwale mounted rod holders (offered in pairs)
- Electric reel outlets (offered in pairs)

COCKPIT

- 12 VDC water maker
- Removable livewell seating (backrest & cushion)
- Insta-freezer in fish boxes and/or livewells
- Additional gunwale mounted rod holders (offered in pairs)
- Electric reel outlets (offered in pairs)

Options & Packages

HELM

- Additional Termodinamica A/C unit
- Mercury Next-Gen Controls (only available on 600hp)
- Thermal Camera Options:
 - FLIR M332 pan & tilt thermal camera
 - FLIR M364C pan/tilt/zoom gyrostabilized thermal camera
- Shock mitigated front row seating

MEZZANINE

- Stowable cockpit dining table with cupholders
- Port / Starboard additions (pick 2)
 - Refrigerator, Freezer, Ice Maker (port side only)

SECOND STATION TOWER

- Aluminum structure and fiberglass buggy top & hatch
- Fiberglass electronics pod
- Full helm with engine controls, trim control, VHF, steering wheel & tilt helm
- Double bench seat with premium marine vinyl, arm rest, and foot rest
- (x2) 6.5" speakers with amplifier upgrade
- 12" chartplotter
- (x2) RGB downlights

ELECTRONIC PACKAGES

- **Garmin Option 1:** (x2) GPSMAP 8616 MFDs; GMR 424 xHD2 4kw 4' radar; SS175M chirp transducer; VesselView 703 & VHF 115 marine radio with antenna
- **Garmin Option 2:** GMR Fantom 124 4' Radar; upgrade to (2) GPSMAP 8617 MFDs; Bilateral SS175L/SS175H chirp transducers; VesselView 703; GPSMAP 8612 MFD in backrest of 2nd row helm seat; upgrade VHF to VHF 315 Marine Radio w/antenna on electric antenna mount; NMEA network expansion

STEREO PACKAGES

- **JL Audio Option 1:** MediaMaster 100s with (x6) 6.5" speakers, (x2) 7.7" speakers and (x3) 10" subwoofers. All speakers/subwoofers and amplifiers are M3/M-series
- **JL Audio Option 2:** MediaMaster 100s with (x2) stereo remote controllers, (x10) 6.5" speakers, (x6) 7.7" speakers and (x4) 10" subwoofers. All speakers/subwoofers are M6 and amplifiers are MVi series

LIGHTING PACKAGES

- **Lumishore Option 1:** RGB lighting package with MFD controls; under gunwale lights, (x2) underwater downlights, (x1) transom underwater light
- **Lumishore Option 2:** add (x3) transom underwater light; (x4) underwater downlights; RGB flex lighting under gunwale and toe kicks; (x6) additional RGB LED courtesy lights; sound to light connection with stereo; (x2) Razor light bars in cockpit
